HAPPY GRANGERS.

Grand Success of the Yuba and Sutter

Pienic Yesterday. MARYSVILLE, May 17th .- The Grangers picnic at General Sutter's old Hock Farm in Sutter county to-day was attended by hree thousand people from Sutter, Yuba and Colusa counties. A steamer towed a barge load of people from Marysville and Yuba City down the Feather river to the picnic grounds. Literary exercises, games, sports, dancing, etc., took place in a magnificent grove of big trees, planted by General Sut-ter, and the finest of its kind in the State. Colonel John P. Irish, editor of the Alta, orator of the day, delivered an eloquent and interesting address. He said that Sutter county astonished him by its wonderful richness and fertility, and had no such as the said that Sutter county astonished him by its wonderful richness and fertility, and had no such as the said that the said that the said that said that said that said the said that s perior in the State for productiveness. Condition of Affairs in Tulare-The Irrigators in Earnest. TRAVER (Tulare county), May 16th.—The Superintendent, Mr. Peacock, who went up Saturday to close the headgates of the Seventy-six Ditch Company, returned yesterday, perfectly willing to let the water run. He was met some 200 yards from the headgates and to'd he was near enough. There were about fifty well-armed masked men backing this command, and it was utterly impossible to tell who a single one of them SprainsandBruises. with he thought perhaps it was better to them have their way. He attempted to read an order or something of the kind to read an order or something to put it up. They them, but they told him to put it up. They did not want to hear it. Where the Seventy-six Canal has its source is where the river is divided into three channels. All persons passing over the road leading to the bridge are peremptorily ordered to halt before coming near the bridge and their business inquired into. Their answer being satisfactory they are courteousl ordered to proceed, with injunctions not to

molest the head-gates.

No disposition to violence is noticeable on the part of the sentries, who are seen patroling the approaches to the bridge.

A reliable party who was up at the headgates a day or so ago say that since the head-gates of the Seventy-six Canal have been raised the volume of water does not appear in any degree diminished. The recent warm weather has increased the volume of water in the river, which has its are engaged. DOUBTERS AND THEIR DOUBTS.

There are a few citizens who look upon the proposition to settle up suburban Sacramento with doubt. This was expected. These gentlemen fear that land-owners will not subdivide. Land-owners, like other men, will do that which conserves their best interests; no one wishes them to subdivide without reaping benefit by rea-"But what guaranty has a man, after

May it not turn out that he will be able to sell only one here and another there. and have all the others left on his hands. and his land be thus dissevered to its injury?"

No. Subdividing will injure no suburban tract, since nearly all settlement is now by colonies, and there need be no actual segregation until colonies form, or until syndicates organize to take the lands. Every sub-tract sold enhances the value of the remainder so greatly as to eliminate all the inconvenience possible from nondisposal at once of all the lesser parts. But what assurance has any one that

the small tracts will be taken at all?" Well, what assurance has any one of life to-morrow? But organization, determination to succeed, backed by the splendid facilities we have, will give all the assurance any man could ask for suburban

tling the region is put upon its feet. The courses will grow up under the subdivision system a new residence Sacramento.

But there must be back of all this movement genuine public spirit, unselfishness and a disposition to benefit the city and its business, rather than to make the new organizations great money-making institutions for their projectors. If the schemes are entered into with the idea of fortune making out of home-seekers, they will and ought to fail. They should and will reward their promoters, and that they will, everyone expects and wishes; but the greater reward is to come from the enhanced importance of the city of Sacramento and every material interest in it.

As a final requisite, there must disappear utterly the pernicious habit of be littling our own and competing with each other. Nothing so surely and quickly disgusts a home-seeker as to find rival claimants for his favor "running each other's offers down," to use a common but expressive phrase. The way to "boom' a section is for everyone concerned in it to speak well of all in it, and to favor every legitimate offer made to invite settlement.

C. H. Orr, of South Carolina, a promi nent young lawyer of that State, is in Marysville as the representative of a colony of South Carolina people, having from \$500 to \$10,000 each, and comprising many families, who have resolved to remove to California, and have commis sioned Mr. Orr to locate them. He has visited Yuba, Sutter and Colusa, and is he has not visited Sacramento, and hope he may do so yet. He could locate his colony on the very border of this city, and give it as cheap, and fine lands as any could wish, and with the added advantages of a great market, a railway center, a splendid system of schools, etc. But if Sacramento may not have Mr. Orr's colony, let him understand that in either Colusa, Yuba or Sutter, in Butte, Tehama, says: Placer, Amadro, Yolo, El Dorado; anywhere in Central and Northern California, he can do splendidly for his principals, and that wherever he locates them, Sacramentans will be just as well pleased, so long as he sticks to the central and northern sections, which we hold to be the equal of any and the superior of most.

Proprietor of the Golden Eagle Hotel, said I'am confident that the spirit of improve ment and enterprise is upon us. The general travel from abroad is increasing very much of late, and the people that come to the city seem to be of the class that wish the best there is in the line of accommodations and are able and willing to pay ac cordingly. There is also," he continued, "a general expression of praise and congratulation concerning our climate. As an instance, a gentleman making the tour of the world recently came here, expecting to remain but a couple of days, but was so pleased with the salubrious climate that e remained an entire month, and then said he could not bear to leave.' GEORGE O. HAYFORD.

Real estate and insurance agent, responded No one who has means of oband exercises them, can fail to see that the advance in values is already here, and throughout this entire section of the State. live years ago, the land upon which Cape Horn vineyard in Placer county is located was purchased for \$5 per acre. This week we sold 40 acres of the ranch for \$10,000 This is but a single instance of the increas in the value of lands, and innumerab cases could be cited of equally large appr iation. Oh, we have the boom right he now, and it's come to stay. READY TO CO-OPERATE.

E. F. Aiken said: "This is an entirely easible plan, and one which I have favored for years past. All the land lying east of he city should be cut into small holdings and be settled by thrifty families. There is already a street railroad to Thirty first street, and an extension of the street the railroad is located upon-H street-would lay open to easy access the rich lands or be formed, not for the purpose of makin money out of it, but to settle up this sec land's idea, somewhat modified, would be tion with desirable families, it would be the

Maslin, of Sacramento, who telegraphed to inquire whether or not he ought to cut off his frosted canes at once and let the dormant bud grow for next year's wood:

year's wood:

San Francisco, May 16, 1887.

E. W. Maslin, Sacramento—Dear Sir: This is in answer to your inquiry as to the proper treatment of vines badly frosted.

To avoid a superabundance of small wood and to produce good canes for next year's fruiting, cut off on short pruned vines all frosted shoots up to the last bud, and keep the vine free from all suckers which do not show fuit. This treatment forces the secondary bud, which is immediately below the frosted shoot, which on prolific varieties will give a partial crop. It also forces out any buds which may have remained dormant up to the present.

Vines pruned according to the Guyot sysmained dormant up to the present.

Vines pruned according to the Guyot system should have the long canes of last year growth pruned to short spurs, to force the domant fruit buds almost invariably found near the base, thereby securing a partial crop and well-developed canes for next year. Yours, very respectfully,

J. H. Wheeler.

Sound -The following appeared in yesterday's Examiner: Yesterday morning argument was begun in the Fitch-De Young libel suit. Henry E. Highton opened for the plaintiff as follows: "We have two classes in our midst. Our good and reclasses in our midst. Our good and respectable men and women are the most admirable people in the world. But there is the hoodlum class, the individuals of which are lower than words can describe; they are lower than the gamins of Paris or the gutter-snipes of London—they are un-utterably low. A Remarkable Cure. Aver's Sarsaparilla has cured me of 25

bad a case of Abscess of the Liver as any human being could be afflicted with aud live. I was confined to the house for two years, and, for the last three months of that time, was unable to leave my bed. Four physicians treated me without giv-ing relief, and, in fact, nothing helped me, ing reflet, and, in fact, nothing nelped me, until I tried Ayor's Sarsaparilla. After using a quarter of a bottle of this medicine I began to feel better, and every additional dose seemed to bring new health and strength. I used three bottles, and am now able to attend to my business. I walk to towe constitutions. I walk to town—one mile distant—and return, without difficulty. Aver's Sarsaparilla has accomplished all this for me.

Circular to Boards of Supervisors. The State Agricultural Society has issued a circular addressed to the various Boards of Supervisors in the State, calling attention to the desirability of county exhibits at the State Fair of 1887, and makes the

following remarks:
"We are informed, and have reason to believe, that there will be a large influx of Eastern visitors at the State Fair this year. We are of the opinion that President Cleveland will pay this coast a visit about that time, a large delegation of veteran fire-men from New York will also be here, and as it is our desire to assist in every way to increase our population and enhance the values of land, we would most respectfully snggest that your honorable body make an appropriation sufficient to pay the expenses of getting an exhibit of this kind together. The railroad company transports the same free of charge; and as you will be certain to receive a portion of the money appro-priated by us, and may receive enough to remunerate you in full for the outlay, this money can be returned to your treasury, so that you will have the full benefit of exhibiting your resources to the world-have your county written up and advertised at so small an expense that it will not be noticed. We have appropriated \$2,000 this year for these county exhibits alone. Appoint some one from your community who is enthusiastic upon this subject; give him the necessary instructions, with power to act. Appropriate from \$300 to \$500 to assist him, and we are positive that the people of the county will applaud your action. Apply for space at once, as we will devote the entire building to the display of county products, if necessary. We would county products, if necessary. We would urge you to awake to the proposition; get in line; keep up with the procession; that the benefits may be reaped by the people of your county, individually and collectively. The State Agricultural Society has added a new feature to the premium list this year, in the shape of premiums for exhibits of grain in the sheaf. We call for forty sheafs, ten inches in diameter of ten forty sheafs, ten inches in diameter, of ten varieties; not necessary to be grown by exhibitor, but he must name variety, locality and producer. First premium, \$40; second, \$20, and third, \$10. This exhibit is for the purpose of showing our Eastern brethren the growth of cereals in this great State. Notice is given at this time, so that samples may be gathered during harvest and laid away."

FISH AND GAME.

Meeting of the State Fish Comm at San Francisco. The Board of Fish Commissioners met at

San Francisco last Monday, all the members present. Joseph D. Redding, Agent of the United States Fish Commission, stated that no shipment of lobsters would be made from ries, etc., leaves by this evening's express the East this year, owing to the operation of the Interstate Commerce Act. In speaking of striped bass found in the rivers of the State, Mr. Redding stated that favor-able reports concerning the fish have been

Increased quantities are daily coming into the market. Encouraging reports were received from the State salmon hatchery at Hat creek, in Shasta county, where the operations of the season promise most satisfactory results. The salmon yield last year was reduced to 1,200,000 fishes, although it was expected to make the number fully five times that

Secretary Sherwood reported that the Commission had authorized the agents at the Shebley hatchery to make certain necessary improvements in the apparatus, so as to increase the trout product to 350,-000, all of which are to be ready for general istribution on October 1st.

J. W. Willage, Captain of the Fish Commission steam launch Governor Stoneman, plying on the Sacramento river, reported that the sealions or seals at the Gate and in the bay have converted themselves into a dangerous nuisance. He affirmed that on many occasions sears had been seen and captured in the river at Sacramento, where they had annihilated vast quantities of salmon. One fishing vessel had returned with thirty-three salmon and twenty-two heads, captured in one net. Another ves-sel was successful in capturing similar trophies, besides several seals which had robbed the nets. The fishermen are becoming alarmed at their prospects, and have submitted an offer to the Commission to exterminate the seals, providing they are duly protected and a small bounty be paid them for their services. The matter was taken under consideration, with a view to bringing it before the municipal author-

ities at the first favorable opportunity. A report that the catfish have proved dangerous to other classes of fish, devouring the spawn to an extent threatening extermination, and that they are not a desirable commodity in the market, was taken up by Mr. Sherwood, who stated that the fish were misrepresented, that they were harmless, and that they have become a desirable commodity in the market. In support of this statement, Mr. Sherwood said that one merchant at Sacramento had disposed of ten tons during the past season. A dozen arrests so far this season (all of Chinese) for violating the fish law were re-ported; also, that fishermen's licenses to the amount of \$2,600 have been collected

since April 1st. President Routier addressed the Commission upon the progress made in the impor-tation of game fowl from foreign ports into the State. The English pheasant and partridge had been highly recommended as birds worthy of his notice, but he had taken no steps in the matter of selecting birds, because he had been daily expecting a communication from the State Sportsmen's Club relating to the matter. The law just passed has given the Commission wide cope in this field, but he did not wish to act hastily in an important matter and import worthless breeds. He stated that if the Sportsmen's Club would furnish him with a list of the most desirable birds for purposes of food and domestication, the ommission would at once take action in the premises.

We know our qualities are unequaled, and our styles unsurpassed. Regarding prices we have always had something to say, and we will still further state that we will not be undersold on any article of equal value, but we take a solid stand as the LEADERS IN LOW PRICES and FINE, MEDIUM AND CHEAP FURNITURE. Our trade has demanded that we carry the finest line of BEDROOM AND PARLOR URNITURE, and to-day we are selling to San Francisco and Oakland, and other parts of the State. The San Francisco Merchants, whose expenses and rents are enormously high, cannot compete with us. If you want fine goods, at reasonable prices, see our assortment, and compare with other Houses.

HOUSEHOLD REMEDIES

SARSFIELD'S REMEDY for the Blood and Constipation! SARSFIELD'S REMEDY for Diphtheria and Pneumonia:
SARSFIELD'S CHRONIC ULCER SALVE!

SARSFIELD, of Sacramento, became fortunately possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So widespread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable

The making of Certificates has related so largely to fraud, that the public has naturally grown suspicious of them. But those here referred to are by such prominent citizens, of such irreproachable character, and the cures are so well known, and the witnesses so easy to reach, that we make the references with out any hesitation:

MRS. H. C. GOODRIDGE, 28 Hawthorne street, nine years in bed with Chronic Ulcers and unutterable pain, and abandoned by physicians. Permanently cured in less than four weeks. Certified to by Mrs. Sarah B. Cooper, the well-known philanthropist and President of the Kindergarten Association, San Francisco.

MRS. L. P. ANDERSON, 710 Eleventh street, Sacramento, Swollen Limb of long standing.

JACOB OLSEN, Sacramento, speedily cured of a Chronic Ulcer. [NOTE.—Nearly all these testimonials include reference to use of SARSFIELD'S BLCOD REMEDY, as well as of the ULCER SALVE.] W. A. DEAN, brother-in-law of M. H. De Young, of the San Francisco Chronicle, cured of

W. A. DEAN, brother-in-law of M. H. DeYoung, of the San Francisco Chronicle, cured of aggravated Fistula in five weeks.

W. B. FITCH, Lincoln, Placer county, thirteen years of Hip Disease, cured in 11 months, [Was treated surgically ten years and given up by surgeons.] Mr. Fitch's brother was cured of Rheumatism of two years' standing by use of three bottles of the BLOOD KEMEDY and one box of SALVE.

REV. J. T. HUFF, Turner Station, Oregon (refers to Rev. Dr. Frost, Sacramento), cured of Blood Poisoning of many years by use of the BLOOD REMEDY and ULCER SALVE. His letter is a remarkably warm indorsement.

Let doubters refer to Hon. Ira. G. Hoitt, State Superintendent of Public Instruction, Sacramento; L. A. Upson, Sacramento; A. D. Carvell (of Carvell Manufacturing Company), San Francisco; Undge Geo. E. Williams, Placerville; Mr. and Mrs. Chas. Lux (Miller & Lux), San Francisco; C. B. Corwin, 925 Market street, San Francisco; W. A. MRS. GENERAL LOGAN'S DENTIST. TWO DISTINGUISHED CHEMISTS.

Prominent Ladies and Four Dentists of Baltimore Agree upon one Thing. A discussion recently arose among some

prominent ladies of Washington and Balti-more, relative to the chemical neutrality and solubility of Zonweiss Cream for the teeth, which was referred to Dr. E. S. Carroll of Washington (Mrs. General Logan's Dentist), and four of the leading Dentists of Baltimore, for whom the article was analyzed by two well known Chemists, Prof. I. Morrison of Washington, and Prof. P. B. Wilson of Baltimore, both of whom pro nounced it soluble and free from anything injurious to the teeth. Dr. Carroll says it is the most perfect dentifrice he has ever

jar, and applied to the brush with a celluloid ivory spoon. It is very, very far superior to any other dentifrice the World has ever known. Price, 35 cts. SOLD BY ALL DRUGGISTS.

The reduction of internal revenue and the taking off of revenue stamps from proprietary medicines, no doubt has largely benefited the consumers, as well as relievng the burden of home manufacturers. Especially is this the case with Green's Aunust Flower and Bosche's German Syrup, as he reduction of thirty-six cents per dozen has been added to increase the size of the bottles containing these remedies, thereby giving one-fifth more medicine in the 75cent size. The August Flower for Dyspepsia and Liver Complaint, and the German Surup for Cough and Lung troubles, have perhaps the largest sale of any medicines n the world. The advantage of increased size of the bottles will be greatly appreci-ated by the sick and afflicted in every town and village in civilized countries. Sample bottles, for 10 cents, remain the same size,
